

Capability Statement

“Specializing in facility and security engineering solutions that protect our nation’s critical infrastructure and systems”

Shearer & Associates, Inc. (Shearer), founded in 2000, is a Small Business Engineering firm headquartered in Huntsville, Alabama, located in the second largest research park in the country, Cummings Research Park. We provide specialized facility and security engineering solutions that protect our nation’s critical infrastructure and systems, worldwide. We are focused on using highly innovative engineering techniques and the right technical team where imagination is not only allowed, but embraced in solving complex facility and security engineering problems.

We have extensive experience developing designs and preparing plans and specifications for facility and security projects. Support includes technical and programmatic services for electronic and physical security systems, energy management and control systems; HEMP, EMI and TEMPEST; construction management and program and project management.

Unique Experience

- Cybersecurity and RMF for FRCS
- Power Generation support for Missile Defense Facilities
- EMP/HEMP Protection Solutions
- Electronic and Physical Security and Access Control
- Advanced Metering
- Long-term Customer Support

What Makes Us Better?

- CONUS and OCONUS project execution
- Manage multiple Task Orders and Contracts at the same time
- 50+ Task Orders over the past 5 Years
- Cybersecurity Support for 50+ Systems
- On-site cybersecurity services for major Military Medical Facilities
- Long-term support to multiple clients

Business Information

- UEI – RLJBEQYGC7Q5
- DUNS – 022720010
- CAGE Code – 1SJN6
- DFARS (NIST 800-171) Compliant
- CMMC L2 Ready

NAICS Include

- 541330 (Primary)
- 541512
- 541513
- 541519
- 541611

Certifications

- PE
- PMP
- PSP
- CISSP
- GICSP
- Security+ ce
